M. , after a breakup, I was left with \$0 to my name...

Over 5 years, we'd built a business together, and when the relationship ended, I left with nothing in the bank, **forced to move back in with my Mum!**

Little did 2015 Carla know that just a few years later she would have...

😊 helped over 7,000 students grow their audience + Instagram through her "little" online course.

Flashforward to 2024 and I'm more passionate than ever about helping women create + market digital products that reward them with the financial security, and flexibility I've been able to build for myself ❤️

M. , if you're ready to...

🌟 create a digital product/online course that can be up and running in just a few weeks.

🌟 design a solid but straightforward marketing strategy that pulls in clients and money without constant input from you.

🌟 develop a system that generates sales while you sleep (or globe-trot 😊)

...then you're going to want to listen up! 🧠💡
